

Our Mission

Victory House Transitional Living will provide high quality, integrated counseling services by highly qualified and compassionate professionals who are committed and invested in the clients' wellness as demonstrated through striving for excellence and providing superior clinical services.

Our Vision

To be the community leading program in providing excellence in behavioral health and addiction services by educating individuals with a new way of living.

Our Promise

The staff at Victory House believe that everyone has the right to recover. Our focus on person-centered care helps make recovery a real possibility for each client we serve

Client Testimony

" When I first arrived to Victory House, I was broken and beaten down due to decades of addiction. For the first time in my life, I found hope and a new outlook. Victory House provided me with a safe learning atmosphere that fostered accountability as well as understanding. They helped me to create and maintain a program of recovery that was specific to my needs. I will forever be grateful to Victory House and how it prepared me to live life on life's terms in a healthy and productive manner. "

~ Tara

About Us

Victory House is a long-term IOP-based transitional living for those seeking treatment and lasting relief from alcohol and substance abuse.

We offer a structured treatment program to promote sobriety and ensure recovery in order to successfully live life on life's terms. We provide a safe, clean home environment with staff supervision to ensure that recovery remains the primary purpose at all times.

With the aid of staff, we believe we can provide the tools needed to recover and live a substance-free and meaningful life.

Now Accepting

Men

Women

Women with Children age 2 and under

Kentucky Medicaid

All forms of MOUD

Here at Victory House we recognize a need for those seeking treatment who are pregnant or have dependents age 2 and under relying on them.

Our mommy and me program was designed specifically to promote recovery while maintaining that vital maternal bond.

In addition, we are able to provide a safe, secure environment for mothers with DCBS involvement that are actively working toward a reunification goal. Mothers are able to participate in our IOP program while having access to many of the services required for their case plan, including but not limited to parenting assessment and referral to outside resources.
