

# About Us

Our program consists of a multi-phase biopsychosocial model that systematically considers our clients physical health, mental health, recovery capital and support systems, as well as their motivation for change to assess the appropriateness of their level of care needs. Our holistic approach allows clients to progress through the program at an individualized rate based upon clinical and multidisciplinary assessment and person-centered treatment planning.

## Healthcare with Heart

## Your Journey to Lasting Recovery Starts Here

### Residential Service

Residential substance use treatment provides individuals with a structured, supportive environment where they live on-site and receive intensive care to help them learn to better manage their addiction. Including a mix of therapies, such as individual and group counseling, life skills training, and medical care, to address the physical and psychological & aspects of substance use. Our program allows for 24/7 support, minimizing external triggers and promoting focus on recovery.

IF YOU OR SOMEONE YOU CARE ABOUT IS BATTLING A SUBSTANCE USE DISORDER, THE EXPERIENCED TEAM AT ARIA IS WAITING TO TAKE YOUR CALL. CONTACT THE ADDICTION RECOVERY INSTITUTE OF AMERICA TODAY.

### IOP/OP Services

Intensive outpatient (IOP)/ (OP) substance use treatment offers structured, therapeutic support for clients as they progress through the program offering lesser levels of care services to participants when clinically appropriate via weekly sessions that include individual therapy, group counseling, and education on relapse prevention. IOP/OP is designed to provide flexibility, while teaching clients to manage personal or professional responsibilities all while working toward recovery.
